

The Richard Song
(Maureen Hall)

Em G D Em,
Chorus: D Em D Em D Em B7,
Em B7 Em (2x)

Verse instrumental

Chorus:

I put together the chords of this song, and I got a melody
You say that you're real good with lyrics, well son
You gotta make up some words for me

Come on Richard, where are the words to this song,
You gotta write some lyrics for me
Come on Richard, give me euphonious sound
Your quirky brand of poetry

Verse1:

I want something sweet, I want something heart felt,
I want something to make people laugh
I know you can do it, There's really nothing to it
With enough coffee in your carafe

Chorus:

Verse2:

You're just a little twisted, But the lyrics are assisted
(By your) demented preposterous ways
Metrical composition, aided by your disposition
Can enchant, amuse, delight and persuade

I put together the chords to this song, and I gave you a melody
There's no reason not to start to work on it son
You gotta make up some words for me
